# 3002 MICROSCOPE SERIES

## Economical, Durable, and Portable!

Sharp, high contrast images and a rigid, cast alloy aluminum frame make the 3002 Microscope Series an excellent choice for educators, medical and veterinary professionals. With a choice of either a cordless LED or halogen light source and monocular, binocular or trinocular viewing heads, the 3002 Series offers unmatched versatility, flexibility and affordability.

## Digital Imaging Made Easy

Integrating the 3002 Series with Micrometrics™ digital cameras and imaging software offers users outstanding results and unprecedented value for image documentation. Micrometrics™ cameras provide excellent color reproduction and fast frame rates to meet the needs of today's life science professionals. Micrometrics™ software provides users with an intuitive and comprehensive system for image capture, measurement, annotation and report generation. Images can be easily emailed, shared or compared.
