Conformity Assessment Services

Products entering the European Union are subject to the requirements set forth in the European Directives. Our services are intended to provide you with the data needed to determine compliance, but the person placing the product on the European market still has the responsibility to ensure each product complies with the applicable Directives. Our report under this investigation will not imply that UL has Listed, Classified, or Recognized the product, nor does it authorize the use of Listing or Classification Marks or other reference to UL, on or in connection with the product. The Manufacturer shall also take care of Group/National deviations as may be applicable before shipping the product to European countries. The Certificate Holder is responsible for the consistent manufacturing of the product identical to the product samples tested during this evaluation.
